

SERGEI SMIRNOV

Research Engineer. Interested in AI safety and MFMs. Date of CV: 01.06.2025
mg1sergey@gmail.com ♦ linkedin.com/in/seriozh1/ ♦ github.com/seriozh1/ ♦ Helsinki, Finland

WORK EXPERIENCE

- Doctoral Researcher**, [University of Helsinki](#) Sep 2024 - Present
- Evaluating and Aligning Social Reasoning in Foundation Models for Safe Human-AI Interaction. Supervisor: [Prof. Giulio Jacucci](#).
- Research Engineer**, [SMEY.AI](#) Jun 2024 - Present
- Building predictive model to optimize the selection of yeast strains for fermentative oils production, improving the fatty acids profile and oil yield. The model reduces the need for extensive manual screening and testing.
- Research Assistant**, [LUT University](#) Sep 2023 - May 2024
- Involved in [EU ERASMUS+ MEDIA](#) as the designer and teacher for the Modules “Math essentials” and “Semantic analysis” of the “Learning analytics for practitioners” course with **250+ students**.
 - Working on **research project** ”Development of a Metric for Robust Model Evaluation with Noise Added to Test Data”. This work investigates the impact of noise injection into text data on the robustness of AI models. By analyzing how models perform with intentionally introduced noise, we aim to not only evaluate their resilience, but potentially uncover a novel technique for enhancing model training. Supervisor: [Prof. Leonid Chechurin](#).
- Machine Learning Engineer**, [Epoch8](#) Nov 2022 - July 2023
- Contributed to open source [datapipe](#) project by implementing multi-threaded execution of data processing graph using Ray.
 - Developed a chatbot on Rasa for an industrial company [Ebraz](#).
 - Build from scratch user search system and improved feed recommendation system for [Looky](#).
- Machine Learning Engineer**, [Somin.ai](#) Nov 2021 - July 2022
- Conducted **research** on improving tailored Facebook advertisement model.
- Product Manager Intern**, Ingram Micro Jul 2021 - Sep 2021
- I was a part of the CloudBlue platform division. Worked as a Product manager for the internal billing platform. Developing a new website, closely working with an IT team..

EDUCATION

- Phd in Computer Science**, University of Helsinki, Finland; Supervisor: [Prof. Giulio Jacucci](#) 2025 - 2029
- M.Sc in Technologies**, LUT University, Finland; with honors, GPA 3.79/4.0, Supervisor: [Prof. Leonid Chechurin](#) 2023 - 2024
- B.Sc. in Computer Science**, ITMO University, Russia; with honors, GPA 3.90/4.0 2019 - 2023

AWARDS

- Dell Technologies First-Year Student Grant** for demonstration of great achievements in mathematics and IT learning for which he is awarded.
- Winner**, ”IT School Samsung Chooses the Strongest” competition. Awarded for developing an Android application focused on road and traffic management.
